

TEGO® Dispers 690 – Especially for food packaging: Dispersant for solventborne pigment dispersions

TEGO® Dispers 690 is designed specifically for solventborne printing inks used in food packaging. The ingredients contained in this wetting and dispersing additive are completely compliant with the A list of Swiss Ordinance SR 817.023.21, Annex 6.

By using TEGO® Dispers 690 in solventborne, PU-containing or binder-free pigment dispersions, high pigment loadings can be achieved due to strong viscosity reduction. TEGO® Dispers 690 is highly compatible with various PU and NC binder types and works well with organic pigments, carbon blacks and titanium dioxide.

TEGO® Dispers 690 is especially effective in gravure and flexo inks for lamination applications.

Company information

Evonik, the creative industrial group from Germany, is one of the world leaders in specialty chemicals. Profitable growth and a sustained increase in the value of the company form the heart of Evonik's corporate strategy. Its activities focus on the key megatrends health, nutrition, resource efficiency and globalization. Evonik benefits specifically from its innovative prowess and integrated technology platforms.

Evonik is active in over 100 countries around the world. In fiscal 2014 more than 33,000 employees generated sales of around €12.9 billion and an operating profit (adjusted EBITDA) of about €1.9 billion.
